Pranesh Krishnan

M S C S O F T W A R E S Y S T E M

Career Objective

To do outstanding performance for the growth of esteemed organization to the fullest extent of my capability and to enhance my personal knowledge.

Education

MSC SOFTWARE SYSTEMS
SRI KRISHNA COLLEGE OF ARTS AND SCEINCE(2018-2023)
CGPA: 8.3

HSC
SVN MARTIC HR SEC SCHOOL(2016-2018)
PERCENTAGE: 89%

SSLC
HILLFORT MARTIC HR SEC SCHOOL(2015-2016)
PERCENTAGE: 94.4%

Technical skills

- PYTHON PROGRAMMING
- HTML,CSS,BOOTSTRAP
- JAVASCRIPT PROGRAMMING
- SQL PROGRAMMING

Area of interest

- SOFTWARE DEVELOPMENT
- WEB DEVELOPMENT
- DATA ANALYST

Awards

- SCHOOL TOPPER(SSLC)-AWARDED BY JCI
- DISTRICT LEVEL FOOTBALL REPRESENTATION(2016,2017)

Projects

SUPERMARKET BILLING SYSTEM (vb.net)

Super market billing system is a desktop application which is used to maintain the inventory(stock)data and to generate bills of purchase. Maintaining the stock and generating the bill manually can be more tedious and time consuming. This project can generate the bills for the supermarket easily and accurately.

FACE MASK DETECTION(python project)

The main goal of the project is to propose a suitable, high-accuracy model that would make mask identification straightforward throughout the pandemic. The suggested method is unique in that it classifies images using the MobilenetV2 image classifier, resulting in more accurate results.With the help of computer vision and deep learning, this face mask detector can be deployed in many areas such as shopping malls, airports, and other high-traffic areas to monitor the public and prevent the spread of disease by detecting whether the person on the image/video stream is wearing a face mask or not.

Certifications

COMPLETION OF HTML PROGRAMMING
SPOKEN TUTORIAL PROJECT ,IIT BOMBAY

COMPLETION OF PYTHON PROGRAMMING
SPOKEN TUTORIAL PROJECT ,IIT BOMBAY

Soft skills

- Leadership
- Team worker
- Quick learner
